

THE BENDERS AGAIN.

STARTLING STATEMENTS BY A MICHIGAN WOMAN.

Mrs. Davis, of Niles, Swears Her Mother is Old Mrs. Bender.

Several Suspicious Circumstances Connected with the Story—Kansas Detectives on the Ground.

A Requisition Asked for the Suspected Woman—Proceedings in Camp No. 20 Still Being Brought Out in the Cronin Case—Officers Shot by Outlaws in the Seminole Nation—Minor Crimes, Etc.

WAR DEPARTMENT, WASHINGTON, D. C., Oct. 30, 8 p. m.—Forecast until 8 p. m. Thursday: For Missouri and Kansas—Fair, except light rain in Missouri; stationary temperature, except slightly cooler in Kansas; variable winds.

OLD MRS. BENDER.
Mrs. Eliza Davis, of Niles, Mich., Says Her Mother is that Person.

NILES, Mich., Oct. 30.—Mrs. Eliza Davis was discharged yesterday on the charge of grand larceny. During her trial many facts were adduced tending to show that Mrs. Monroe (Mrs. Davis' mother) was connected with the Bender murders in Kansas. By her own admission Mrs. Monroe had seven husbands and a number of them have mysteriously disappeared. Her daughter Eliza insists positively that Mrs. Monroe is old Mrs. Bender. Much interest was manifested and many blood curdling and horrible revelations were brought out during the examination. Officers from Kansas have been in the state for ten days investigating the case and are satisfied that they have at last discovered the notorious Bender family. A requisition has been asked for and as soon as it arrives the parties will be taken to Labette county, Kansas, for trial.

THE CRONIN TRIAL.
More Klan-na-Gael Proceedings Divulged by Witnesses.

CHICAGO, Ill., Oct. 30.—At the opening of the court in the Cronin trial this morning State's Attorney Longenecker asked for an attachment for Edward Spellman, of Peoria, Ill., the district officer of the Klan-na-Gael. Three telegrams had been sent to him, but he had not responded. The attachment was ordered issued. The first witness sworn in was Dennis O'Connor. He testified that he was a member of Camp 20, Klan-na-Gael. At a meeting of the camp on February 8 last, the witness said he heard Thomas O'Connor state that he had heard read in Dr. Cronin's camp the minority report of the committee to try the executive body of the order. The names of the members of the executive body were not mentioned, and the witness said he never knew who composed the triangle. Then it was voted to appoint a committee to go up to Dr. Cronin's camp and investigate the matter. The minority report, which Dr. Cronin had read, Patrick Nolan, financial secretary of Camp 20, testified that he was present at a meeting of the camp on the night of May 3, the day preceding Dr. Cronin's death; that Beggs presided; that there a call for the report of the secret committee appointed in February last and that Beggs replied that the committee was to report to him alone.

The next witness was Captain Thomas P. O'Connor, the man who created the excitement in Camp 20 on the night of February 8 by saying he had heard read in Dr. Cronin's camp a report of the committee that tried the triangle. He said Andrew Foy was the first speaker. Foy denounced Le Caron and the triangle and believed that Le Caron was guilty of the murder. Then spoke and stated that the triangle was composed of a set of thieves and had stolen \$100,000 of the funds. He had heard a report of their trial read in another camp. Several members demanded the source of his information but he refused to give it until Beggs, the senior guardian, demanded it and Beggs would not demand it. Daniel Connelley moved that a secret committee be appointed to investigate the affair. Mr. Beggs said he would appoint the committee.

The cross examination of O'Connor was unimportant. On re-direct examination he stated that the report which he had heard in another camp on the night of February 8 was verbal and was made by Dr. Cronin. The next witness was Henry Owen O'Connor, a member of Camp 20. He described the meetings of February 8 and 22 without bringing out any new points. At another meeting, he said, Connelley came to him and accused Cronin of being a spy like Le Caron. The witness stopped him at that point. Police Officer John Collins, a member of the Camp 20, said that at a meeting on February 22, Dick Powers and Pat McGarry made speeches and that a secret triangle, when Beggs interrupted them and told them they must stop or there would be war, because Alex Sullivan had many friends there. Pat McGarry, senior guardian of Lake View Camp, described the meeting of February 22. His testimony brought out nothing new. The court then adjourned until tomorrow.

KILLED BY A BURGLAR.
DAVENPORT, Ia., Oct. 30.—Thomas McCausland, a wealthy merchant living about two miles from here, was aroused at 2 o'clock by his daughter who told him that burglars were in the house. Taking a revolver he went out on the hallway. There he saw an intruder, who turned and fired three shots. The first struck the merchant in the shoulder, and the bullet imbedded itself in the region of the heart. Mr. McCausland, though desperately wounded, returned the fire but without effect. The murderer fled with his companion, but was subsequently arrested. He made a clean confession, giving his name as John Webb, a man who had worked in the neighborhood during the summer, and implicated an accomplice who has not yet been captured. Webb was brought to Davenport as a lynch party was being organized. Mr. McCausland is not expected to live.

OFFICERS SHOT BY DESPERADOES.
FORT SMITH, Ark., Oct. 30.—Information was received at the United States marshal's office today to the effect that on Sunday last Robert Reed, a Mexican, and a Creek Indian known as Sop Lip Willie, both acting in the capacity of officers, went to a remote point in the Seminole nation to arrest a desperado and horse thief named Coffey Barnes. They found him and a fight ensued in which Barnes was killed. The two officers then went to the house of John Halsey, a white man, and while sitting on their horses at his gate five of Barnes' pals rode up and without a word of warning shot them to death, after which they rode off. The murderers are all well known tough characters and answer to the names of Cudde Barnett, Prince Hawkins, Ross Ryder, D. Brown and one Lane. John Halsey furnished the information and says that as the Mexican killed was an American citizen that fact gives this court jurisdiction.

PEIFFER'S STORY BELIEVED.

WINNIPEG, Man., Oct. 30.—Assistant State's Attorney Baker, of Chicago, had an interview with ex-convict Peiffer last evening and in company with his counsel was closeted for a long time with this man who claims that Burke made to him a full confession of the Cronin conspiracy. Peiffer, from what can be learned, reiterated his story and, it is said, told Baker sufficient to convince him of its truth. There is little doubt that Peiffer, knowing the importance of his testimony, being aware that he can not be compelled to go, is after big money. Gillette, of Fargo, who was sentenced for forgery, and to whom it is alleged that Burke also, while a fellow prisoner here, made a confession, was interviewed by Baker and some important information obtained.

TAKEN UNAWARES.

Unsuspected cases for malaria exist everywhere. A sunken lot partly filled with water in the vicinity of your abode, a new location upon land filled in, but formerly overflowed or marshy, and causes far more occult than these produce the atmospheric miasmata which constitute the germs that, if inhaled, ripen into fever and ague and congenital maladies. A person taken unawares with a malarial complaint, should, as a first step, be isolated from the air, safe, non-disappointing cordial medicine, Hostetter's Stomach Bitters, which has for over a century, and in every quarter of the globe, relieved the malaria stricken and neutralized miasma in air and water. The bitters imparts activity to the stomach, bowels and liver, represses rheumatism, and remedies inflammation of the kidneys and bladder. Appetite and sleep are improved, and the infirmities of age mitigated by its use.

TWO KILLED IN A WRECK.

PORT JARVIS, N. Y., Oct. 30.—A freight train with two engines, while switching at Otseville last night at 6 o'clock, broke in two and the two cars ran backward down grade, about a mile east of Otseville at a speed of forty miles an hour and ran into a west bound freight train, wrecking the engine completely and twenty-four cars. Samuel J. Sloat, flagman, was instantly killed. Levi Brerly died this morning of his injuries. The injured are Engineer J. D. Fowick, Fireman John C. Briery and Brakeman Lee Garrett. The wounded were brought to the hospital at this place.

WOOD FOR SUPPLIERS.

WASHINGTON, Oct. 30.—Upon presentation of facts by H. C. Hansbrough, representative-elect from North Dakota, as to the suffering condition of the settlers in that portion of North Dakota near Fort Totten military reservation, Secretary Proctor has granted permission for the settlers to secure wood from the reservation for ten days, and has authorized an appeal by the post commander and a board of commissioners to be appointed from each of the counties in which the suffering exists.

Salvation Oil, the greatest cure on earth for pains, as an anodyne has no equal in the market. It kills pain every time. Price twenty-five cents.

The latest riddle out: Why was my baby's last attack of croup like this paragraph? Because it was very short and ended with that wonderful cure, Dr. Bull's Cough Syrup. Price 25 cents.

THE ENGINEERS' WORK.

DENVER, Col., Oct. 30.—The only business of importance transacted by the engineers today was the auditing of the charity claims which amounted to \$30,000. The committee appointed on Monday to confer with a like committee from the Knights of Labor and a like committee of the Brotherhood of Carpenters and Joiners of the United States on the subject of confederation reported that they were unable to reach any agreement and asked for further orders. The convention added to this committee George W. Freeman and sent them back for further consideration.

Sal-rheum is cured by Ayer's Sarsaparilla. Write J. C. Ayer Co., Lowell, for evidence.

HOG CHOLERA EPIDEMIC.

INDIANAPOLIS, Ind., Oct. 30.—The state board of agriculture has advised from many of the northern and northwestern counties saying that hog cholera is epidemic and that hundreds of hogs are dying daily and the disease is steadily increasing. In Steuben county it has assumed such proportions that there are but few who have not lost from 50 to 75 per cent of their stock. It is especially fatal to hogs that have been put up for fattening. No remedy has been put up to have any effect and all attempts to stop the spread of the disease have failed.

Physicians prescribe Ayer's Pills as the safest and most perfect cathartic compound.

HATFIELD-MCCOY FEUD AGAIN.

HAMILTON, W. Va., Oct. 30.—A hundred and fifty men, nearly equally divided between the Hatfield and McCoy factions, were passed some ten or twelve miles south of Hamlin last night and a bloody battle was fought. The Hatfields are entrenched in the hills and at last reports the Hatfields had discovered their whereabouts and were marching to attack them.

CHARLESTON, W. Va., Oct. 30.—The matter of the Hatfield-McCoy meeting at or near Milton to fight this morning, is pronounced untrue by parties who reside in the neighborhood.

"Truth has a quiet breast," says Ayer's Sarsaparilla, but when that breast is troubled with a cough it can not be quiet. Try a bottle of Dr. Bull's Cough Syrup. The cough it will still the soreness away, and you'll bless Dr. Bull for many a day. 25 cents.

"This will last out a night in Russia when nights are longest," he said, clapping his hand over his aching tooth. Salvation Oil was applied, and he was fast asleep in twenty seconds. Price twenty-five cents a bottle.

UNITED STATES SUPREME COURT.

WASHINGTON, Oct. 30.—The following business was transacted in the United States supreme court: Chas. H. Sawyer, of Meriden, Conn., was admitted to practice.

No. 1219. Henry Lyng, plaintiff in error, vs. the people of the state of Michigan; motion to advance submitted by Mr. Howard E. Thompson, for the plaintiff in error.

No. 1493. Robert S. Hale, plaintiff in error, vs. Gottlieb Scherrer et al.; in error in the supreme court of Montana territory; on motion of Mr. M. B. Phillips for appellants in error, docketed and dismissed with costs.

No. 49. The Hastings & Dakota Railroad company, plaintiff, vs. Julia D. Whitney et al.; writ of certiorari awarded at the cost of the appellants; further question as to costs reserved to the hearing of the merits.

No. 55. James Goodenham Wortis et al., plaintiffs in error, vs. the city of Watertown; in error to the circuit court of the United States for western district of Wisconsin; dismissed with costs per stipulation.

COMMITTED SUICIDE.

KANSAS CITY, Mo., Oct. 30.—Harvey D. Wilson, of this city, a contractor and builder, committed suicide this morning by shooting himself in the head. The deceased was formerly a wealthy citizen of Milwaukee and came here about four years since. He was a member of the Knights Templars and that order will have the direction of the funeral.

A MISSIONARY MURDERED.

LONDON, Oct. 30.—Advices from Brisbane state that the name of a southern New Guinea have massacred Rev. Mr. Savage, who was sent out by the London Missionary society, a number of native teachers and the crew of the cutter Mary, belonging to the society. The steamer Albatross, belonging to the Queensland government, has been dispatched to the scene of the murder.

GUILTY OF CRIMINAL LIBEL.

SALINA, Kan., Oct. 30.—The case of criminal libel brought against W. S. Walcott, editor of the Lincoln County Beacon, terminated today in a verdict of guilty as charged. The case grew out of sensational charges made by Walcott against Mohler who defended Pat Kearney for the killing of Jesse Turner. The case will be remembered as the one during which a juror who hung out for acquittal was lynched.

WOMEN AS INVENTORS.

Some of the Patents Granted Them—A Field for Great Achievement. That women are coming to the front as inventors and patentees is evinced by the fact that in twenty-two weeks patents were granted to fifty-three women.

Within this century, or since the year 1790, when the first patent was taken out by a woman, 3,500 inventions have been patented by women. The first woman to get an invention patented was a certain Mary Kels, and her discovery was one for weaving straw with silk or thread. In 1815 Mary Brush received a patent for a corset. Sophia Asher followed in 1819 with a carbonated liquid cream of tartar, and Julia Platten, in 1822, with a foot stove. After that date the entries are annual, with the exceptions of the years 1827, 1829, 1830, 1832, 1833-39, 1844, 1846, 1852 and 1854-55.

From the first year of this century to 1858, precisely fifty patents were granted to women. Up to the outbreak of the civil war, patents were granted to only two southern ladies, one to Mrs. Agnes S. Goodman of Florida, for an improvement in broom brushes in 1840.

During the same period New York had furnished 14 women patentees; Massachusetts, 4; Ohio, 2; and Maine, Connecticut and New Jersey 1 each.

The patents were by no means confined to domestic arts and conveniences, or to the hygiene or adornment of women. For instance, in 1864, a Miss Montgomery brought forward an improved war vessel. In the same year a young woman from Michigan introduced the improved lantern dinner pail. Miss Montgomery also devised an improvement in locomotive wheels, having by the way, many associates in railroad inventions, even to an apparatus for destroying vegetation on railroads.

One woman in Iowa made an improvement for cigars; another in Philadelphia offers a mustard spoon; a third in Boston contributes a trousers tree. There is an apparatus for killing mosquitoes patented by a woman. The question naturally arises, Did that woman make her fortune?

Some of the more bizarre devices are for inducing sleep, for restoring facial symmetry and for exposing hair to the action of heated vapors. Mrs. Maria Beazley, of Philadelphia, is a clever inventor who lives on the shipping department of a large city. She manufactures artificial obligations as well as profitable royalties. By means of her invention hundreds of ready-made barrels are turned out in a day.

Mrs. Emma D. Mills, one of the most energetic advocates in New York of the introduction of women into the professions, has monopolized by men, has invented a patent typewriter attachment, has patented in her own name, and is to manufacture and sell it herself. For this purpose Mrs. Mills has even had to make special tools made, but she has in no way yielded to obstacles that to most women would seem insurmountable. The attachment is on the order of the governor of an engine, and stops all action of the machinery. It seems that an inventor who makes her own tools and with them manufactures her own patent ought to succeed.

The celebrated English actress, Mrs. Kendal, is the inventor of a lamp and candle shade, from the shade of which she makes a handsome profit. The wife of a New York banker has invented a machine for making wire rope, the patent of which she has sold to a San Francisco firm for \$25,000 cash and a royalty. The way she came to hit upon this was from a device she used to twist her hair. Miss Helen Boardman made a fortune through the invention of a simple attachment for a sewing machine.

A hand refrigerator and lunch box has been invented by Miss Phelps, of Dorchester, Mass. It is particularly suitable for lunches and picnics, and has a compartment for ice. The smallest size holds three pounds and a half of ice in a zinc lined box, and it is said to last for seventeen hours.

Miss Proctor, of Lima, O., has patented a process by which it is claimed 10,000 cubic feet of illuminating gas can be extracted from one barrel of Lima oil.

Blanche Willis Howard, the novelist, has patented a music rack and a bath shoe—New York Star.

AN UNPUBLISHED SONG.

Yes, we met, I was a lover
Of many a sweet and winning face,
Ere one of folly's whims was over,
Another quip supplied its place.

But though I've bent the knee to many,
And felt my bosom throbb'd for thee,
Trust me, I never felt for any
Half what was taught me by thy smile.

Then, dearest, think not that I love thee
The less for having loved before,
Trust me, if others' charms could move me,
Thine, dearest, must, oh how much more!

I'm like that youth we read in story
Who worshiped me a long and far,
Until the pure moon's brighter glory
Rose to his sight more lovely far.

Since then by woodland streams and mountain
She was the sole and only dream;
His heart was likened to a fountain,
The faithful mirror of her beam.

Thus do thy brighter beauties move me,
And though I loved the stars before,
Be thou my moon! Henceforth I'll love thee—
I cannot tell thee how much more.

—Thomas Moore in Century.

A Funny Figure.

A black figure which represents the Virgin, and which is held in high veneration by the people of Madrid, is very funny and amusing. It looks like a monkey dressed up in smart doll's clothes. Its wardrobe is extensive. It is the same image that was brought to be laid on the bed of Don Carlos, son of Charles V., and is said to have cured him of his illness. It is kept in the Church of the Atocha, where royal marriages and marriages take place.—Madrid Letter.

Cracks in Pretty Woman's Lips.

Early in the autumn the winds cause fissures or cracks in the lips that are not only extremely unpleasant to look upon, but are exquisitely painful, and by touching them with your tongue are intensifying the pain very much. Go to the drug shop and get there an old remedy, so old that it has the charm of novelty. It rejoices in an overpowering Latin name, but when you ask the druggist for it in English, say you want citron cream; apply this with your fingers, or a soft linen cloth, and the cooling and healing result that will follow will convince you that even in medicine sometimes old things are best.

A Mother's Eyes.

Mrs. Flunkett, the superintendent of the House of Mercy, a hospital on the English cottage plan, in fashionable Pittsfield, Mass., given an example of a mother's devotion to her child to a young man, her son, a promising young man, just ready to enter a medical school, was stricken with a disease which left him blind. He was unwilling to resign himself to idleness, and his mother went into the classroom with him, making his eyes. The text books on anatomy, physiology, chemistry and materia medica she went through with him, reading each day's portion over four times aloud, to be sure it was thoroughly comprehended. The young doctor graduated with honors, and will devote himself to heart and lung diseases, specialties in which sight has comparatively little to do. Mrs. Flunkett is a serene faced woman of 50, who is an intimate friend of Miss Dages, the daughter of the senator.

Warranted Free From Injurious Drugs.

TANSILL'S PUNCH 5¢

DR. TERRILL

Rooms 2 and 4, Gandolfo Block
154 NORTH MAIN STREET.

CONSUMPTION.

Dr. Terrill treats consumption with Dr. Weigert's HOT AIR APPARATUS, being the treatment used in all the leading hospitals with such marvelous success and the only treatment recognized by the medical profession as curing the dreaded disease.

BRONCHITIS.
Bronchitis quickly cured by BESELER'S SHADING AND NEBULIZING TREATMENT. This method has made Dr. Beseler's name immortal by the invention of an instrument and medicine to cure a disease that is so prevalent and has been so unyielding to treatment.

CATARH.
Catarrh cured by Holy's New Treatment, used by all the leading specialists in eastern cities. By the means of BESELER'S LARYNGOSCOPE or the examination of throat and head, the patient is enabled to see all catarrh or any diseased condition of the same.

NERVOUS DISEASES.
Dr. Terrill wishes to call the attention of those suffering from nervous diseases, lost manhood, nervous prostration, etc., to the wonderful curative effects to be derived from "electricity" when scientifically applied and directed to the system. The application of electricity in nervous diseases is a special feature of his practice. The doctor has the finest first-class diamond carbon coil battery ever seen in the west and all the appliances especially adapted to the treatment of the "diseases of women."

SPECIALTIES.
Consumption, Bronchitis, Catarrh, Asthma, Nervous Diseases, Diseases of Women and Children, Private Diseases, Scrofula, Skin Diseases, Diseases of Nose and Throat, Loss of Strength and Vitality, Kidney and Bladder Diseases, Diabetes, the Liver, Heart, Stomach and Bowels, "Syphilis," (speedily and permanently cured by the new treatment which has proven so successful in European hospitals).

Dr. Terrill has recently returned from Chicago where he has been taking a course in the Post Graduate school and has had advantage of seeing the instruments and the treatment used in all the "hospitals" of that great city. He has provided himself with all of the new appliances for treating private and chronic diseases.

Fibroid Tumors of the Uterus, Uteral Stricture and Piles Treated by Electrolysis on the plan of NO CURE NO PAY.

Consultation and Examination Free.

DR. TERRILL,

OFFICE GANDOLFO BLOCK,
RESIDENCE: 151 NORTH TOPEKA AVENUE.

FRISCO LINE TO ST. LOUIS AND THE EAST.

Passengers going east should bear in mind the Frisco line runs through the only line running two through passenger trains to St. Louis without change, equipped with magnificent Pullman palace sleepers and elegant reclining chair cars.

Only one change of cars (St. Louis Union depot) from Wichita to Louisville, Cincinnati, Cleveland, Buffalo, Pittsburgh, Washington, Philadelphia, New York, Boston and other eastern points. Trains leave Oak Street Union depot at 10 a. m. and 10:30 p. m.

Travel via the Frisco line and avoid disagreeable changes of cars and vexatious delays.

D. WISHART,
Gen'l Pass. Agent,
W. D. MURDOCK,
Pass. and Ticket Agent,
No. 123 North Main street,
d-136-1f Wichita, Kans.

Keep This for Future Reference.

The Fort Scott, Wichita & Western railway "Missouri Pacific Route" is the only line running solid trains through from Kansas City to St. Louis and St. Louis, leaving Wichita at 9:15 p. m. you arrive at Kansas City next morning at 7 o'clock.

Pullman palace sleeping and free reclining chair cars through to Kansas City and St. Louis without change. Remember if you go via the Fort Scott Route you are not dependent on mail line connections through Kansas City and St. Louis.

All trains are made up here and run through solid to Kansas City and St. Louis. It is the shortest line to St. Louis by 48 miles and two hours the quickest.

Two trains daily to St. Louis and all points between. Leave Wichita at 7:15 a. m. and 7:45 p. m. Depot corner Second and Wichita streets.

Passenger and Ticket Agent, 137 N. Main St., Wichita, Kan.
H. C. TOWNSEND,
G. P. & T. A., St. Louis, Mo.

St. Louis and Kansas City Cheap.

The Missouri Pacific railway, the St. Louis short line, will sell round trip tickets to St. Louis and return for \$17.50. These tickets will be sold September 2, 5, 9, 12, 16, 19, 23, 26 and 30, October 3, 14 and 17. On October 5 to 13 inclusive the round trip fare will only be \$14.00. Cheap rates to Kansas City September 13 and 14, \$8.20 for the round trip. The Missouri Pacific is the shortest line to St. Louis by forty-eight miles, and makes the quickest time by over two hours. Leaving here at 12:15 p. m. you arrive at St. Louis next morning at 6:40 without change of cars.

For information of ticket agents and passengers, 137 North Main street, or depot office, corner Second and Wichita streets.

E. E. BLOCKLEY,
Passenger and Ticket Agent,
137 North Main street.
